

Developing A Standards Based IEP

A standards based IEP assists students in accessing and progressing in the general education curriculum. It aligns goals with the Ohio Academic Content Standards, Benchmarks and Indicators.

A seven step process to developing a Standards Based IEP will be presented that includes:

- Knowing the child
- Examining the data
- Developing present levels
- Developing annual goals, including-benchmarks or objectives
- Reporting progress
- Identifying specially designed instruction
- Determining Statewide assessments
