

Directions for A+ installation

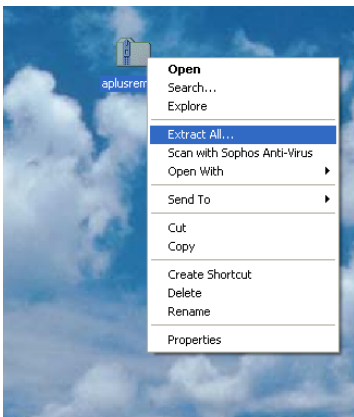

Open a browser and navigate to the following web page:

<http://www.ncoesc.esu.k12.oh.us/technology.htm>

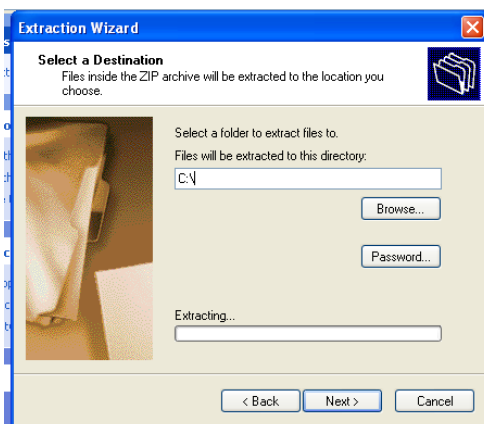

Under Quick Links, click on A+Remote
The following dialog box will appear:

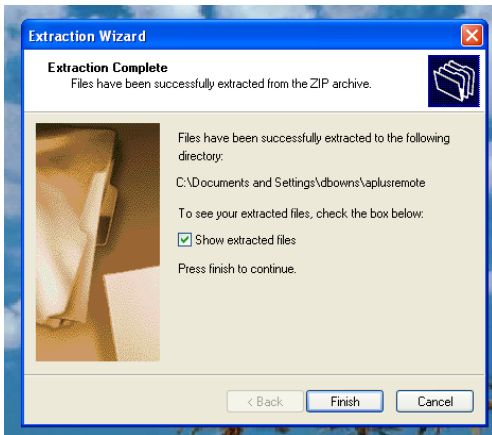

Choose Save and navigate to your desktop to save the zipped file.

Next, right click on the file and choose Extract All.

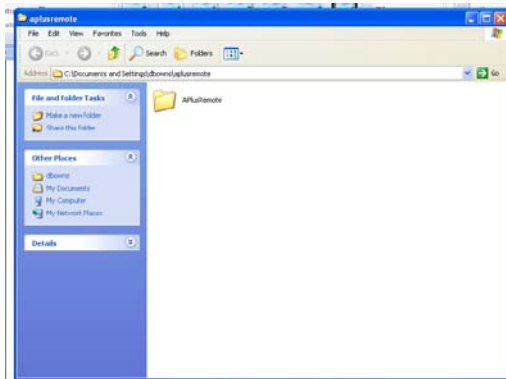

This will open an Extraction Wizard, please follow the prompts. When asked to select a destination, you must choose your c: drive. The program will not install if files are extracted to the desktop or any other location.

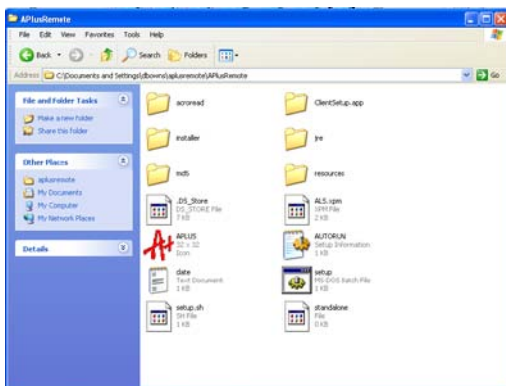

Continue to choose next prompts and files will extract to the c:drive

Leave Show extracted files checked and click on Finish

Double click on APlusRemote file

Double click on setup icon and installation will begin.

Continue choosing all next or yes prompts during the install. The install will look for the correct version of java on your computer. It may prompt to install a new version, please do this install. This will require a restart of your computer and a return to the APlusRemote folder to restart the installer.

When installation is complete, the A+ icon will appear on your desk top. Click on this to begin using the program. If prompted to download and install any updates, please complete these steps also.
