Technology Summer Camps
For Students Entering Grades 3-8

North Central Ohio
Educational Service Center

928 W Market St, Tiffin, OH 44883

June 18 - {Coding for Students/} ($20)

Coding is the new language being taught in schools, and it can lead to several, future careers. We will be using different iPad apps and web applications designed for students to learn about coding. Students will learn the basics of programming and will then be able to apply it to a website called Scratch to take their skills to the next level.

June 19 - Minecraft ($20)

Our most popular camp last summer, Minecraft is still one of the most popular games on earth! This camp will allow all the area Minecrafters to come together and collaborate as well as conquer challenges that are given to them during the day. (This camp is for iPad, iPod, Kindle, PC, Mac users. For PC/Mac, students will need to already have a Minecraft account on computer, available at: https://minecraft.net)

June 25-26 - The Movie Producer ($40)

Do you like making movies on your iPad or mobile device? Do you like to take pictures and turn them into slideshow movies? This camp is just for you! We will learn how to create trailers and movies with iMovie on the iPad, including editing, special effects and uploading so that the world can see your creations.

Camp Information:

- Camps will run from 8:30-3:00 each day, with a 30 minute lunch.
- Campers will provide their own lunch. The NCOESC will provide a snack during the day.
- Camps are designed and run by teachers and educational technologists at the NCOESC.
- Camps & activities are aligned to the Common Core & ISTE Technology Teaching Standards.
